## Accelerate Your Wine

by Brant Burgiss

Merry Christmas from your winemaking friends in the beautiful Blue Ridge Mountains of North Carolina! All of us at [grapestompers.com](http://grapestompers.com) wish you and your family a safe, happy, and fun holiday season.

If you haven't made your Christmas wine yet, don't panic... there's actually still time to pull off your own *Miracle on 34th Street* and have wine ready for holiday enjoyment! We've been testing a new product - now available on our web site - that allows you to make and bottle certain types of Heron Bay wine in as few as **seven days**.

I know what you're thinking... I've either gone crazy or have been nipping too much at the eggnog - but it's true. This new product - called an accelerator pack - is now available for purchase on our web site. Crazy Tom has tried these accelerator packs himself and gives it his official "thumbs up." Look for Item #2712R, [Heron Bay Accelerator Pack](#), which currently sells for \$6.34.

This product was made to work ONLY with select Heron Bay Wine kits:

- All **Summer Mist products** (fruit wines like Peach Chardonnay, Raspberry White Zinfandel, Black Cherry Pinot Noir, etc.)
- Any other Heron Bay wine kit that uses a **sweet reserve pack**

Please follow the product instructions to the letter. The accelerator pack CANNOT be used with any Heron Bay wine that doesn't contain a sweet reserve pack, nor will it work with any other manufacturer's wine kits. We've tried it on other brands of sweet and fruity wines (like the Orchard Breezin' line from RJ Spagnols), but it doesn't work. Good luck accelerating your wine... and send us your "speedy" wine story!

### Important Announcement

## Order Deadlines for Christmas Delivery

To ensure delivery of winemaking supplies in time for the Christmas season, here's our recommendation for ordering:

This schedule is based on deliveries made no later than 21 December, and allows one extra day to compensate for possible bad weather.

Paul says, "I just need one glass a day!"

## Hot Tip

### Cooking Tip

Like sauvignon blanc, but having trouble finding dishes that pair well with it?

By simply adding fresh herbs, you can make most any dish a better match with this particular white wine.

# Mother Nature's Gift of Snow

by Tom Burgiss

Holiday Greetings from all of us at grapestompers.com!

We finally received our DVD entitled *Blue Ridge Mountain Snowfall*, which consists of scenes shot around our mountains of snow falling softly on a back drop of split rail fences, barns, and the New River. Scenes for you to enjoy in the quiet of your home, relaxing in a nice chair with a glass of your own wine you have so carefully fermented and bottled! Visit [WatchItSnow.com](http://WatchItSnow.com) or [order the DVD from grapestompers](#).

This video should be used under the following conditions: If you had a good day, you deserved it... or if you had a bad day, you need it!! Think of yourself sitting on a bench watching the snow, without a care in the world except to enjoy the pleasantness of that moment.

## Customer Feedback

Dear Pam,  
Grapestompers is a great company to do business with. Pam, you did an EXPRESS job in handling this problem; thank you very much.

By the way, you always make great looking labels for my wine. I really appreciate the personal attention for each order. Thanks again...

Wayne Wheatley

Dear grapestompers,  
I am new at this winemaking thing but it's GREAT! I have only made one batch and it's not even ready yet and I want to purchase a white wine kit. Thanks for your web site, [it's] very nice. I would also like to join your newsletter if I could.

I didn't get free wine labels when I ordered from the other company. Now I'm stuck searching for some. I will definitely be ordering from you again in a day or so. Thanks a bunch.

Hi,  
Just want to thank you for the fine service we got on Saturday. Kathy and I came in Saturday the 4th of November to pick up kits #30 & 31.

Paul was a great help and fun individual to discuss fermenting ideas with. He's a great asset to your company. Thanks as always,

Jim & Kathy Pirt  
Asheboro, NC

I'm pleased to do business with a company that is so thoughtful toward its customers. My husband and I do a LOT of homebrewing (as you can tell, we're novices at wine), and we'll be sure to return to grapestompers for any supplies that we need to order online. Thanks again,

Laura Willis  
Framingham, MA

We also hope you will enjoy the choices of three different soundtracks consisting of holiday, classical, or an ambient atmosphere of soft, restful acoustical guitar music. You've heard the expression "stop and smell the roses"... well this is our rendition of tasting the fruits of your labor! If you know someone who is wound up tight each day, then this will make the perfect gift for them!

## Corky's Corner

### Winemaking Definition

#### Resinate

Impregnation or flavoring with resin in order to give wine a special character, as in the famous Greek wine Retsina.

Look for other wine-related definitions by viewing our online Glossary at [www.grapestompers.com/glossary.asp](http://www.grapestompers.com/glossary.asp)

#### Prevent Wine/Grape Stained Hands

Instead of using harsh chemicals to clean your wine dirty hands, why not prevent them from getting stained with juice in the first place? Wear nitrile gloves purchased at your local safety supply house; they're stronger than latex gloves, without the smell or a possible latex skin reaction.

## Dangerous Virus Going Around

There is a dangerous virus being passed around electronically, orally, and by hand. This virus is called Worm-Overload-Recreational-Killer (WORK). If you receive WORK from any of your colleagues, your boss, or anyone else via any means DO NOT TOUCH IT. This virus will wipe out your private life completely. If you should come into contact with WORK take two good friends to the nearest grocery store and purchase the antidotes known as: Work-Isolating-Neutralizer-Extract (WINE) or Bothersome-Employer-Elimination-Rebooter (BEER). Take the antidote repeatedly until WORK has been completely eliminated from your system.

Thanks for all the great supplies and expert advice.

Don Byle

Hidden special - Automatic temperature-compensating 0-32 Brix Refractometers - Item #2597A - are on sale during December 2006 (while supplies last). Save \$10.00 off the regular price of \$49.95. Be sure to ask for the hidden special in the "Comments" box when ordering online, or you will not get the special price.

### Is Wine Really Easy to Make?

I'm interested in producing my own wine, although I've never done it before. The kits you offer, are they complete "everything you need" kits or is there additional items needed. I'm looking to turn out a full bodied dry red, Italian style. I'm interested in bottling it as well. Can you please suggest a kit and the items I would need.

Thank you,  
Joe Faro  
Staten Island, NY

Hi Joe,

Thanks for contacting us with your questions about making wine at home.

Besides the wine kit (which is a box that contains the grape juice concentrate, directions, yeast, oak [if necessary], bentonite, potassium metabisulfite, potassium sorbate, and fining ingredients), you will need the equipment with which you make the wine. Some of what you need are consumables (like corks and capsules, which you need to buy each time you make a kit, or cleansing/sanitizing chemicals which need replacing when you run out), while the hardware components (like the fermentation bucket/lid, glass carboy, corker, siphon tube, vinyl tubing, airlock / bung, bottling wand, wine bottles, bottle draining tree, bottle washer/rinser, etc.) can be used time and again for years so long as they are kept clean and dry.

I've used the same carboy, bucket, etc. for eight years and they're still going strong. For the new winemaker, we offer special bundled packages of equipment that will save you money over buying everything separately.

The ultimate savings when you need everything (wine concentrate plus all the equipment) is offered with the ["complete" wine kit](#). Click the link... and look for item #3100, which is the complete package when you want a red wine.

Even though the red wines that are offered with this kit by default (Merlot, Valpolicella, and Shiraz) are all good, you can really select any red wine to go with this kit. From your description of the wine you desire, it sounds like a Barolo would serve you very well. It's a full-bodied Italian-styled red wine made from Nebbiolo grapes. It has some nice tannins, too, but that means you must be patient to let the wine age a bit (six months, at least, following bottling) before you start drinking it. Whether you decide to get the 8L kit (4-week kit) or the 16L kit (6-week kit) of Barolo, the process is the same and both kits make 30 bottles of wine.

As you make more kits, the only thing you'll have to buy each batch is a wine kit (juice, etc.), corks, and capsules. Remember to save and recycle your bottles!

To me, another big advantage of getting the complete kit is that you get a winemaking DVD as part of the deal. You can see just how easy it is to make wine by watching us make it via your TV or computer screen. And, each wine kit you purchase from us comes with free, personalized wine labels. I think you'll enjoy your new hobby!
